Professional Summary

Full-Stack Software Engineer with 2+ years of experience building scalable web applications using React, Next.js, Redux Toolkit, Node.js, Express.js, and TypeScript. Proven track record in developing robust APIs and managing PostgreSQL and MongoDB databases, while leveraging AI tools for content generation and workflow optimization. Skilled in cloud deployments with Vercel and CI/CD pipelines, known for collaborating with cross-functional teams to deliver user-centric solutions on a global scale.

Work Experience

Software Engineer – RTIG Inc.   *June 2025 – Present | Remote, Canada*
- Develop and maintain full-stack web applications using React, Node.js, TypeScript, and PostgreSQL.
- Lead technical implementation across multiple product verticals, ensuring scalable architecture and clean code practices.
- Collaborate with international teams across multiple time zones to deliver product features and resolve blockers.

Tech Intern – AcemyX   *July 2024 – March 2025 | Lagos, Nigeria*
- Built and maintained responsive, user-friendly company websites using React and Tailwind CSS.
- Worked with UI/UX designers to convert Figma designs into interactive, production-ready interfaces.
- Supported internal automation projects using AI tools for content generation and workflow optimization.
- Assisted engineering leadership and delivered solutions in a fast-paced startup environment.

Student Intern (SIWES) – Lagos Channel Management (LCM)   *May 2024 – November 2024*
- Configured routers, switches, and VLANs; monitored network infrastructure using Nagios.
- Enhanced internal applications using HTML, CSS, and JavaScript.
- Provided technical support for 50+ staff members and performed diagnostics.
- Managed SQL databases, ensuring data integrity and structured data analysis.

Education

University of Ilorin   *2021–2025*
Bachelor of Science (B.Sc.) in Computer Science

Volunteering & Leadership

PRO – NACOSS, University of Ilorin
- Acted as primary communication channel during 300 level, disseminating vital information to students and facilitating engagement.

Volunteer – Google Developers
- Supported AI-focused initiatives and participated in Career Fest events to empower developers and students.

Welfare Secretary – NACOSS, University of Ilorin
- Provided personal support to students by listening and resolving issues, bridging communication between students and the executive team to foster a supportive community.

Contributor – Open Source Community
- Contributed to open source codebases, enhancing projects and collaborating with global developers.

Certifications

Programming in JavaScript – Meta

Frontend Development – Meta

React: The Complete Guide – Jonas Schmedtmann

Node.js Bootcamp – Jonas Schmedtmann

Responsive Web Design – freeCodeCamp

AI Prompt Engineering – ALX

Software Engineering – ALX

Machine Learning Mathematics – Duke University

Skills

Communication, Leadership, Teamwork, Problem-Solving, Critical Thinking, Adaptability, Ability to Work Under Pressure, Time Management, Attention to Detail
Languages: JavaScript, TypeScript, HTML, CSS, SQL
Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, GraphQL, WebSockets
Databases: MongoDB, PostgreSQL, Prisma, Redis
Tools/Tech: Git, GitHub, Vercel, JWT, OAuth, CI/CD
Other: Responsive UI/UX Implementation, Authentication Systems, API Integration
