WORK EXPERIENCE

Software Engineer — EcoBank

Mar 2026 - PRESENT | Lagos, Nigeria | [Ecobank](#)

Automated key HR onboarding processes, including document management and employee onboarding workflows, significantly reduce manual intervention and processing time.

Enhanced the Check Tracking Portal by implementing new functionalities that improved cheque monitoring and tracking accuracy.

Delivered system improvements that increased process reliability and reduced the effort required for tracking and managing cheque-related activities.

Software Engineer (Intern) — PacifyLabs Technologies Limited

APR 2024 - OCT 2024 | Kwara, Nigeria | [PacifyLabs](#)

Built and deployed [BookMyTime](#), an appointment scheduling platform, contributing across the entire software development lifecycle.

Implemented a secure Stripe subscription system with automated billing and webhooks, reducing payment errors by 25%.

Optimised the application for **SEO and performance**, significantly improving the platform's Google search ranking.

Set up Vercel CI/CD pipelines for automated deployments, cutting deployment time by 40% and ensuring faster, more stable feature releases.

VOLUNTEERING

Software Engineer — Nigeria Association of Computing Students (NACOSS)

OCT 2020 - OCT 2024 | Nigeria | [NACOSS](#)

Modernised NACOSS legacy web systems by refactoring outdated components and improving performance, resulting in faster load times and a smoother user experience.

Contributed to the overall revamp of NACOSS digital tools by participating in code reviews and planning sessions, resulting in a more maintainable system and faster rollout of new features.

PROJECTS

QLearn

JUN 2024 - AUG 2024 | [Qlearn](#)

This project addresses real challenges that students in Nigerian higher institutions face when using AI chatbots to study.

This project emerged as **Second Runner-Up out of 10 teams** in our capstone project showcase, highlighting the project's innovation and impact. ([View post](#)).
